..... \$1.03

INSECTICIDES

ORCHID SPRAY—A DDT-Rotenone compound for the prevention and control of scale, beetles, thrip, and other orchid pests. Recommended dilution: one part insecticide to 400 parts water, applied to plants with ordinary hand sprayer. 8 oz.—\$3.25, Pint—\$4.50, Quart—\$7.50.

HI-TOX—A new insecticide containing Malathion which has proved to be highly effective in the prevention and control of scale, red spider, and aphids. Dilute one tablespoon per gallon of water and apply with ordinary hand sprayer 8 oz. \$1.80

ORCHID POWDER — A DDT-Metalddehyde compound highly successful in the eradication and control of slugs, snails, and sow bugs. This material should be lightly dusted on and under the benches and wherever such pests travel. Obsolete salt shakers are ideal for application 1 lb. @ \$2.00

FERTILIZERS

Rivermont recommends fertilizing seedlings and mature plants of Cattleyas, Cypripediums and Cymbidiums; however, we caution that if the plant does not have a well developed root system, do not fertilize under any circumstances, because the plant will not absorb the nutrients which are made available in the potting medium. These are the two fertilizers we use and recommend:

VHPF—(Guaranteed analysis 6% nitrogen, 25% phosphorous, 15% potash).

NUTRI-LEAF—(Guaranteed analysis 16% nitrogen, 16% phosphorous, 16% potash).

Both of these superior plant foods contain trace elements and growth stimulating hormones. VHPF is used as a fertilizer, NUTRI-LEAF is used as a liquid fertilizer and as a spray for the leaves. The recommended concentration of each is as follows:

When fertilizing weekly, use $\frac{1}{2}$ tablespoon per gallon water. When fertilizing at two week intervals, use 1 tablespoon per gallon of water.

VHPF—3 lb. package—\$1.50.

NUTRI-LEAF—3 lb. package—\$1.60.

ORCHID PRINT COLLECTION

Rivermont's orchid prints have become famous throughout the world. We are offering a set of seven for \$2.00, postpaid. These exquisite reproductions from Kodachromes and paintings are approximately 8¾" x 11¼". Units cannot be broken and when supply is exhausted, it is unlikely that these will be re-printed. They make lovely gifts, and are suitable for framing and hanging in the home.

Lc. Snowdrift, var. Rivermont
C. Bow Bells, var. Emily
Lc. Derna. var. Jean
Lc. Clint McDade
C. Stalin, var. Rivermont, AM, RHS
Lc. Gold Gleam, var. Martie Everest

The seventh print bears pictures of the five following blooms. Each picture is approximately 3" x 3¼" in size.

Lc. Hyperion, var. Rivermont
C. Thetis, var. Rivermont
C. Swan, var. Snow Queen
Lc. Windermere, var. Clovelly, AM, RHS
Lc. Princess Ishtar, var. Mary, AM, RHS

POST CARDS

Handsome true color Ektachromes of C. Enid, alba, (white with colored lip) and Lc. Helen Wilmer (lavender)—lovely to look at, you will want ample supply to send your many friends, relatives and fellow orchidologists!
